

Public Works Department
**Permit to Install Telecommunications Equipment
in City Right of Way Permit**

Permit No: 191113-1
Issue Date: November 13, 2019
Expiration: May 13, 2020

Issued to: Crown Castle Fiber LLC
10980 Grantchester Way, 4th flr
Columbia, MD 21044

Location of Work: 902 Merrimac Drive, Takoma Park, MD 20912

Description of Work:

Installation of a 4 ft tall antennae (omni-directional ampherol 6U4MTSP1X12Fxs01), an equipment shroud with 3 radios, and an electric meter and disconnect to Pepco owned utility pole #802422-090050, per the plans submitted on September 9, 2019.

Conditions/Comments:

Within 15 days of permit issuance applicant must provide payment of the Right of Way Maintenance and Administrative Fee of \$500. This fee must be paid annually thereafter on the anniversary date of the permit approval.

Applicant shall notify City when installation is complete so required RF testing can be performed by the City.

Within 15 days after installation is complete, the permittee shall certify to the City that the installed facilities conform to the applicable conditions of permit approval.

Annually, between June 1 and July 1, the facility owner must provide an affidavit to the City certifying that approved facility remains in use, is covered by insurance and is the current industry standard.

The permittee shall submit and maintain current at all times basic contact, emergency contact and site information. Any changes to this information shall be provided to the City within 7 days. Any change to the emergency contact information shall be made to the notice on the facility itself within 1 day of the change.

THIS PERMIT IS NOT VALID UNLESS SIGNED BY THE PUBLIC WORKS DIRECTOR
OR THEIR DESIGNEE

Date: 11/13/19

Public Works Director
